STUCK MARKET

Halt Called on Boosting Prices Early in the Day as a Matter of Caution.

ENDED LIQUIDATION NOT

MILLIONS TO BE DISBURSED IN NOVEMBER.

New York, Oct. 31 .- The halt to the advance in prices of the early part of the day was regarded as a normal note of caution. Too rapid a re-establishment of ordirary trading conditions in the stock market would be considered as endangering the progress of recuperation in the general situation and especially as hazarding the solidarity of the recuperation in the stock market itself. The signs that in the stock market itself. The signs that Sloss Steel 200 liquidation of collateral out of loans was not wholly completed came as a note of Int. Met. 800 warning after the easing money rate had so far stimulated courage that some com-mission houses had commenced to accept orders for buying on margins, the mar-gins being, of course, extremely wide, and jealous scrutiny being exercised over col-

The easing money rate at the stock exchange cannot yet be accepted as in-dicative of an entirely free open market rate, brokers being restricted to their own bankers for securing accommodation and subject to the requirements therein. The forced liquidation which was pursued of certain loans left no resource apparently to the borrowers in the way of resort to the open money market. The narrow proportions of the securities market is forced into view in face of these liquidating episides and prices are severely affected, as in the case of the selling of Pennsylvania. The check to the upward movement would be assignable, in a normal period, to the end of the month requirements, which are unusually heavy this

year.
Total interest and dividend disburse ments for November are estimated by the Journal of Commerce to amount to upwards of \$75,000,000, compared with \$53,000,000 in November of last year. Large amounts of these payments have been disbursed in the last few days in an advance of the date of the obligation in the course of the measures taken by bankers

Spelter was unchanged locally, but slightly higher in London, with spot deformed with banks.

Additional engagements of gold made during the day proved that the advance of 1 per cent in the official discount rate of the bank of England had not shut off the inward movement of gold to New York. The readlness of the bank of France to recoup the London market for supplies transferred to New York fortifies the situation, although the heavy decline in bullion holdings of the bank of England and the large credit expansion, both by the English institution and the bank of France, were evidences of the widening sphere of the influences of the New York position.

Satisfaction was felt with the reports of the quick reason and with spot and county in London, with spot the board of dental examiners. The regular semi-annual meeting of the board of dental examiners of the state of Utah will be held in the board of education rooms, city and county building, at Saft Lake City, on Mon-day and Tuesday, Nov. 4 and 5, for the examination of applicants.

GRAIN AND PROVISIONS

Chicago Chic

Satisfaction was felt with the reports of the quick response amongst the national banks to the offer of increased facilities for taking out bank notes afforded by the comptroller of the currency, agreeing to accept other bonds for govagreeing to accept other bonds for govagreeing to accept other bonds for govagreeing. Corn was up 1%01%c. Oats were up to the currency of the curren

cilities for taking out bank notes afforded by the comptroller of the currency, agreeing to accept other bonds for government bonds as security for government deposits, provided use is made of the withdrawn bonds for securing new circulation. The movement of all kinds of traffic continues very large and any obstacle to its continuance would retard the relief of the situation through the marketing of these commodities abroad.

Outright buying of securities for investment in small lots is actively pursued, but this movement also is hampered by the tieing up of facilities. Thus the would-be buyers of stocks at interior points are complaining that they cannot procure exchange on New York. It is believed also that the restriction on withdrawals of savings banks deposits withholds a considerable demand from the market for securities.

December delivery showed a net loss of security should be completed delivery showed a net loss of security should be completed delivery showed a net loss of security should be completed delivery showed and to lose date of a level market. At the close wheat for becomber delivery showed a net loss of security should be market. At the close was up 1%07% c. Corn was

Bonds showed the effect of forced liqui-Bonds showed the effect of forced liquidation at some points, as well as stocks. The corn market was strong all day there was a sprinkling of advances amongst them. Total sales, par value, \$3.004,000.

The corn market was strong all day because of the active demand by cash houses. Wet weather in the corn belt, small local receipts, and the claim that

small local receipts, and the claim that eastern stocks of corn are now down to a minimum and advances of from 1 to 3 cents in the price of cash corn were the main reasons for the urgent demand. The close was strong and close to the high point. December opened a shade lower to 160 cents in the price of cash corn were the main reasons for the urgent demand.
